Dear Sir/Madam

APPLICATION NO: 6.70.mainstreet.TREENT 19/00951/TREENT
PROPOSAL: 5 Day Notice
LOCATION: STREET RECORD Staveley North Yorkshire
APPLICANT: Staveley & Copgrove Parish Council

I refer to your email dated 04/03/2019 giving notice to fell a lime tree at the above location. The Council's arboricultural officer Mr Alan Gilleard has confirmed that the tree works may go ahead and has made recommendations for replacement planting. He has made the following comments:

My observations on the above application are as follows:-

Lime – Recommend that the 5 day notice be approved. The lime has extensive Kretzschmaria deusta effecting approximately 50% of the tree on the northern aspect resulting in an elevated risk of cross sectional flattening.

All works shall be carried out by an appropriately experienced and qualified tree surgeon.

All works shall be carried out so as to conform to British Standards 3998:2010

Recommendations for Tree Works.

Replacement planting – 1 N° Oak. Tree to be 10-12 cm girth when measured at 1.5 metres from ground level at the point of planting.

Tree to be planted in prepared pit, which is 50% larger than root ball of the tree to be planted. The sides of the planting to are to be forked over to help alleviate compaction and allow the tree roots to become established.

Tree to be planted with the root collar at the same level as the surrounding soil levels.

Tree to be backfilled with topsoil clean of building contaminants.

Tree to be anchored with a single stake angled at 45% and attached the trunk of the tree at approx.1 metre above ground level. Stake to be driven into the ground clear of the root ball.

Tree to be planted in the first planting season after the felling of the noted trees and between November and March within 2 metres of the felled tree.

All tree stock to be supplied in accordance with BS 8545:2014 Trees: from nursery to independence in the landscape – Recommendations.

If within a period of ten years from the date of the planting of any tree that tree, or any tree planted in replacement for it, is removed, uprooted or destroyed or dies, or becomes, in the opinion of the local planning authority, seriously damaged or defective, another tree of the same species and size as that originally planted shall be planted at the same place, unless the local planning authority gives its written consent to any variation.

Signed

Alan Gilleard

Date 08/03/2019
